

FRENCH ROBERT DECIDES UPON RE-ORGANIZATION OF THE ARMY

WAR CLOUDS IN EUROPE ARE NOT SO THICK TODAY AS YESTERDAY.

ASQUITH'S STATEMENT RELIEVES THE TENSION

GERMANY READILY ACCEPTS ENGLAND'S ASSURANCE OF NON-INTERFERENCE.

Banhouillet, France, July 28.—At the conclusion of the cabinet meeting today, when President Poincaré presided, two official announcements were made.

The first was that President Poincaré, in explaining to his colleagues the external political situation, had said that the poor relations between France and Germany were proceeding normally.

The second announcement was that the cabinet had decided upon a reorganization of the army which represents "the crystallization of the military work pursued by the republic for the last 40 years."

May Ends the Knot.

Paris, July 28.—It is believed in official circles that France and Germany will be able to enter into a treaty by direct negotiations and without opposition by the cabinet of England, of Great Britain and the other powers.

Germany's Opinion Confirmed.

Belgian predictions would be replaced until after this meeting. The foreign office was fully prepared for Premier Asquith's statement and has now confirmed that it had earlier announced that Great Britain would not interfere so long as Germany and France were trying to settle the matter directly and also that Asquith's direct negotiations and without opposition by the cabinet of England, of Great Britain and the other powers.

Tension is Eased.

London, July 28.—It was generally expected today that Premier Asquith's statement has helped to clear the air and that the tension in the Franco-British relations in the Moroccan situation.

Stanton Relieved.

Mr. Asquith's announcement that the Algerian act not the dispute in the Algerian situation, has been shown to be a mere diplomatic ploy, some more realistic settlement will be effected which will transmute the European situation, as well as the domestic difficulty.

Optimism in France.

Paris, July 28.—The British prime minister's statement in the House of Commons has greeted here with the greatest satisfaction. Optimism is beginning to manifest itself and the opinion expressed is that the French government will be able to handle the situation with a view to a settlement of the Moroccan situation.

PEOPLE AND PRESS OF BRITAIN APPROVE ATTITUDE OF ASQUITH GOVERNMENT IN THE MOROCCAN SITUATION.

London, July 27.—The London morning papers give great prominence to the statements of Premier Asquith and Mr. A. J. Balfour on the Moroccan difficulties. Editorially they deal with the situation in a tone of studied moderation, but all, irrespective of party, express hearty approval of the government's statement and, while admitting the delicacy and gravity of the situation, believe that the attitude of Great Britain as revealed in Mr. Balfour's cordial endorsement of the government's policy will assist in a peaceful solution.

The Chronicle, a government organ, has authority to say that the international situation is distinctly easier than it was a few days ago, when peace was trembling in the balance.

The Daily Telegraph thinks that it ought still to be possible to secure an amicable adjustment between France and Germany by some limited acquisition of territory by Germany on the side of Kamerun as a result of the rectification of the frontier.

The Morning Post cannot believe that the German emperor, who so recently as King George's guest, at the Gull hall, expressed a desire for peace and goodwill towards England, could have spoken in that strain if his government were expecting Great Britain to be faithless to her engagements towards France.

Canada and Australia Control Their Navies

REPORT OF THE CONFERENCE BETWEEN CANADIAN AND AUSTRALIAN REPRESENTATIVES AND BRITISH ADMIRALTY IS PRESENTED TO HOUSE OF COMMONS BY SPECIAL PERMISSION.

Ottawa, Ont., July 28.—When the House of Commons met this morning, Sir Wilfrid Laurier read a cable from the British Admiralty in reply to one sent by Earl Grey, according to which the British Admiralty had agreed to be allowed to make public the report of the conference between the representatives of Canada and Australia and the British Admiralty on the subject of the control of the naval station of the Dominion.

The chief features of the agreement were that the navy of Canada and Australia will be excluded by the British Admiralty from the control of the naval station of the Dominion, and that training will be generally uniform for the navies of the British Empire.

The British Admiralty will be responsible for the control of the naval station of the Dominion, and that training will be generally uniform for the navies of the British Empire.

RECIPROCITY WAR IS NOT YET ENDED

THURTS WILL CARRY FIGHT INTO REPUBLICAN NATIONAL CONVENTION.

Washington, July 28.—The struggle over the Canadian reciprocity bill in the United States did not end today with the President's signature. Indeed, it looks as if the war were only begun. It was learned that the reciprocity bill is being carried into the Republican National Convention next summer. Plans are made to conduct a sort of referendum on reciprocity. Thus, the issue will be discussed in a number of conventions which will be held next spring, after the Republican National Convention next summer.

OPPOSITION REFUSES TO PASS EITHER RECIPROCITY OR REDISTRIBUTION, BUT WILL FORCE DISSOLUTION OF HOUSE.

Bulletin Special.

Ottawa, July 27.—The opposition spent another day in obstruction. J. D. Taylor, of New Westminster, who spoke for five hours last week on Chinese immigration, taking up the afternoon and night on the same question.

Referring to the reported utterance of George Taylor (Conservative) of London that the labor union should be dealt with by the bayonet, the minister of labor read a letter from the opposition members to the house. It was written at the time of the Hiltner coal miners' strike from the office of the company by Taylor, to the department of labor. It complained that it was "outrageous" that the department had not interfered. Mr. Taylor added: "The mine owners should be allowed to import men whom the government should not allow to enter the country." Mr. Taylor demanded that the minister read another letter he had written to the department. Mr. King did it.

"The government should bring in legislation making it illegal for men to make strikes."

"Evidently," said Mr. King, "the opposition member desires we should compel men to remain at work whether they desire to import with reciprocity and then reaching voting of supply. Measure many important public works were held up. The opposition seemed determined to force dissolution before reciprocity and redistribution."

In response to questions concerning the stoppage of public works the premier stated that opposition obstruction was preventing dealing with reciprocity and then reaching voting of supply. Measure many important public works were held up. The opposition seemed determined to force dissolution before reciprocity and redistribution.

EXPECT BIG FUR CATCH IN 1912

BEN HURSELF SAYS HARRIS ARE BECOMING PLENTIFUL—RAMPFORD AGAIN.

"Ben" Hurself, the veteran fur trader, arrived in Edmonton from the north yesterday. He left Fort Smith on his way south the New York steamer, he was on the Alaska river with nearly 600 miles north of Edmonton, on his way south about a month ago. He came up the Athabasca river with the Athabasca, the river being in flood. The fur catch which he brought with him is now lying in a building at Grand Forks, near the Athabasca Landing, and is in unusually good shape.

Prospects are very bright for a big catch next winter according to Mr. Hurself. He expects the fur catch of the Athabasca river to be much better than that of the Athabasca river, and he expects the fur catch of the Athabasca river to be much better than that of the Athabasca river.

Prospects are very bright for a big catch next winter according to Mr. Hurself. He expects the fur catch of the Athabasca river to be much better than that of the Athabasca river, and he expects the fur catch of the Athabasca river to be much better than that of the Athabasca river.

SCOTCH DOMESTICS WILL COME

A variety of domestic help in Edmonton may not continue much longer if the Scotch housewives take advantage of an offer that has just come to the attention of Secretary Fisher of the Scotch Society. This offer will continue to prove to be very welcome news to many who have been forced to get along the best they could without the aid of a maid, housekeeper, etc.

The offer, which naturally occurring to the busy brain of the Scotch girl as of some importance to her and of considerable service to a suitable place, in some home.

One was that her prospective employer must be a responsible person, and the offer equally important provision had to do with the question of wages. Through the men who wrote in their behalf the Scotch girls wanted distinctly to understand that the prevailing wages here were inadequate. It should be understood that they wanted their services the pay would have to be increased.

The letter further stated that the supply of domestic help among Scotch girls was unlimited and that Scotch girls were not to be taken under the conditions named.

Secretary Fisher will receive and forward application to any one who desires to engage the services of a Scotch woman.

TO HELP IMMIGRANTS' FAMILIES.

At a meeting last night of the Edmonton Imperial House, the Union Association Fund, which was opened in Edmonton some weeks ago, the board of directors was appointed on whom will fall the task of carrying on the work of the fund.

The board was authorized to name a secretary and a trustee who will have the honor of the fund.

The Imperial House, Union Association, promoted by the Winnipeg housewife, was launched by them on their visit to Edmonton some weeks ago. The idea was supported by those who attended the meeting and a general canvass of the city disclosed a sufficient number of the prominent men who were interested enough to become subscribers of the fund necessary to the carrying on of the work.

An agreement was drawn up some time ago and the names of 27 housewives men obtained to the document. Three more have expressed their willingness to subscribe and when their names are added there will be secured the \$1000 which is the minimum for the successful operation of the fund.

At a meeting last night of the Imperial House, the Union Association, promoted by the Winnipeg housewife, was launched by them on their visit to Edmonton some weeks ago. The idea was supported by those who attended the meeting and a general canvass of the city disclosed a sufficient number of the prominent men who were interested enough to become subscribers of the fund necessary to the carrying on of the work.

An agreement was drawn up some time ago and the names of 27 housewives men obtained to the document. Three more have expressed their willingness to subscribe and when their names are added there will be secured the \$1000 which is the minimum for the successful operation of the fund.

AROUND THE CITY

LOCALS.

Mrs. Durling, 47 Clara street, will mourn the loss of her husband at the late hour, Friday, July 28.

A man named Martin of the Vancouver News-Advertiser, at present a visitor in the city, expects to make a trip to the West.

The first arrest for "barney" for the night of July 27 was made yesterday when John Trow was taken in charge and released on bail. The man he leaves town immediately which has served to.

All brewers and others interested in work horses in the city are asked to be present tonight at the meeting of the W.M.C.A. at the Work Horse Bar, 1010 10th street, at eight o'clock. A big display of draughts is expected to be present.

The camp of the Y.M.C.A. at Wabamun Lake has broken up and the majority of the members who have enjoyed the outing returned to Edmonton last evening. Two extra cars were attached to the train to take the members of the camp and all of its accessories were brought in.

About their camp yesterday afternoon a team took flight on Nanaimo avenue at a steam roller and in their efforts to get away, it plunged into the plate glass window of Alken and Tupper's, where it was shattered into bits and the glass scattered over the pavement. The team is said to have been not seriously hurt.

NO APPOINTMENTS MADE.

No appointments have been made as yet to the vacant position of the chief of the Canadian National Police. Acting Premier Mitchell, when asked yesterday by the press, stated that he had no intention of making any appointment until he had received the results of the examination and that no appointment would be made for several weeks.

RECEPTION TO NEW HEAT.

A social was held last night at St. Paul's Church, 10th street, to welcome the new heat, Mr. and Mrs. J. H. Durling, who are the wife to the organization, to attend a great meeting.

The meeting was held at the church, Mr. Heath, chairman, opened up with a few words of introduction, and Mr. H. H. Durling, the secretary, then spoke of the importance of the meeting and the importance of the meeting.

RECEPTION TO MEDICAL MEN.

The reception for the convention of the Alberta Medical Association to be held in Edmonton, August 15, 16, 17, 18, was definitely arranged at last night's meeting of the local medical men, which was held at the hotel of F. P. Macdonald, 15 Jasper West.

The outstanding features are to be the first evening which will be devoted to a smoker; the second evening when Dr. H. H. Durling will give a lecture and the third afternoon which will be spent at the exhibition grounds.

CELEBRATING IN HAYT.

President Simon's Home City Talk Before Revolutionists.

Port-Arthur, Hayt, July 27.—It is reported that Cazes, President Simon's home town, has fallen into the hands of the revolutionists. If this is true it is a severe blow to the administration of the province.

At a meeting last night of the Imperial House, the Union Association, promoted by the Winnipeg housewife, was launched by them on their visit to Edmonton some weeks ago. The idea was supported by those who attended the meeting and a general canvass of the city disclosed a sufficient number of the prominent men who were interested enough to become subscribers of the fund necessary to the carrying on of the work.

FALSE HUNGER

A symptom of stomach trouble corrected by food food.

There is, with some forms of stomach trouble, an abnormal craving for food which is frequently mistaken for a "good appetite." A lady teacher writes from Chicago, Mo., to explain how with good food she dealt with the worst of hunger.

"I have taught school for fifteen years, and up to nine years ago had good average health. Nine years ago, however, my health began to fail, and continued to grow worse steadily. I note of doctor's prescriptions, and time and again continued to eat, but the more I ate the more I wanted to eat. I was a nervous wreck. The first symptoms of my breakdown were a distressing nervousness and a loss of flesh. The nervousness was so bad that finally it amounted to actual prostration. Then came stomach troubles, which were very painful, and constipation which lasted on pills, dyspepsia and severe nervous headache.

"The doctors seemed powerless to help me, and I was overworked and at last used to give up teaching. I wished to save my life. But this I could not do. I was on it as well as I could, each day, and my power alone keeping me up, till at last a good friend suggested that I try a diet of fruit and vegetables, and from that day to this I have found it delicious and strengthening and satisfying.

"I owe my restoration to health to Dr. H. H. Durling. My weight has returned and I am now as good as new. I have been free from the nervousness, constipation, and headache, and all the ailments that used to punish me. I have been able to work freely and easily. Name given by the Canadian Post, Co., Windsor, Ontario.

Read the little book, "The Road to Wellville," in plain English. There's a lesson in it.

Ever read the above letter? It is genuine, true and full of human interest. True and full of human interest.

TALK NO 9

—There is furniture and FURNITURE. The former you just move and it cracks, you sit on it and it breaks. The latter you can do almost anything with and it retains its appearance and utility. The latter is our specialty—may we show you?

In affiliation with Manitoba University Session commences Oct. 2nd, 1911. Five years course. Excellent clinical facilities. For full information apply to The Registrar.

Dr. E. S. Popham Medical College, Winnipeg.

SIX DAYS INSTEAD OF SEVEN.

As mentioned in the agreement entered into recently between the employers and members of the Hotel and Restaurant Employees Union, covering the question of wages and other conditions surrounding that class of labor they have decided to cut out one day's work each week, making it six days instead of seven as heretofore. In order to bring this about without imposing any additional burden on the employers the union has arranged to furnish the various eating houses with roller beds, so there will be no need of any extra beds in the hotels and restaurants.

Any change in the public taste which will therefore be secured as usual without any change in price. Neither will the employers be inconvenienced in any way, while the employers are happy and everybody is satisfied.

SHOWS GROWTH OF DAIRING.

As mentioned in the report of P. T. Smith, secretary of the Board of Trade, the dairies in the province have thrown a considerable light on recent developments in the dairying industry. The dairies have increased in number and the dairies have increased in number and the dairies have increased in number.

"I never saw so many really

Nice Things so Cheap!"

No wonder the woman was so enthusiastic about what she saw in our last Saturday Sale.

It is an economy event without precedent in Edmonton. Everything is so fine and fresh and nice, because there aren't any old goods in this store, and we are determined "to keep the store new." That is why so many delightfully fresh and desirable things are being sold without reserve each Saturday at the lowest prices shrewd shoppers ever experienced.

Now is the time to buy for today's needs. Each department contributes desirable articles at quite insignificant cost.

SATURDAY SALE

FRIDAY, JULY 28, 1911.
RECIPIENCY OR OBSTRUCTION?
 Reciprocity means that the producer of farm products would be able to sell them where he could get the most money for them, and the consumer of farm products allowed to buy them there where they could get the best money. Whom business would that injure?

THE ALTERNATIVE.
 Parliament began morning session on Wednesday, and first day was clear enough that longer affairs will not be so much more serious with reciprocity. The members of the House of Commons, respectively, were in the hall of law, but reciprocity was not reached until 11 a.m., and no program was made after that time. To those who in courtesy the release of a few representatives opposition movement be called progress. At this point it was decided to take about eleven weeks to give the members fifty-five opposition members a chance to say what they had to say about the measure. Three solid months of prevention of the dispatch of business, after the first day of marking time we have already had, is the alternative to calling on an election before reciprocity is passed. At the end of the three months reciprocity would be no longer realisation than the day it was introduced. There is an immediate election or the indefinite postponement of reciprocity.

A FOOLISH SUBTERFUGE.
 In their endeavor to escape responsibility for an election they ought to know the western people have been given the additional representation in Parliament to which their growth in number entitles them. Opposition papers are unwilling that in March last Mr. Borden advised the Government to have the census taken earlier than intended. In order that the redistribution could be made before the census was necessary. This sounds very well, but one circumstance of some importance has been overlooked. In the second chapter, 5, of the Acts of the Parliament of Canada, passed in the year 1882, reads as follows:

Sec. 8. A census of Canada shall be taken by the office, under the direction of the Minister of the Interior, in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter.
 2. A census of the population and territory of the provinces of Manitoba, of the provinces of Alberta, Saskatchewan and British Columbia, and of the Northwest Territories, shall be taken by the office, under the direction of the Minister, according to special forms and instructions to be approved by the Minister, and the date in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter.
 3. The Minister shall, in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter, cause to be taken a census of the population and territory of the provinces of Manitoba, of the provinces of Alberta, Saskatchewan and British Columbia, and of the Northwest Territories, and the date in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter.
 4. The Minister shall, in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter, cause to be taken a census of the population and territory of the provinces of Manitoba, of the provinces of Alberta, Saskatchewan and British Columbia, and of the Northwest Territories, and the date in the month of June, in the year one thousand nine hundred and eleven, and in every fifth year thereafter.

A TIMELY WARNING.
 The Montreal Gazette seems to be hesitating in the case of the reciprocity bill. It will be rejected by the people. At any rate, it hangs out a warning sign to the members of the House of Commons. The bill is a warning sign to the members of the House of Commons. The bill is a warning sign to the members of the House of Commons. The bill is a warning sign to the members of the House of Commons.

price which the producer gets for raw material and the price which the consumer pays for the finished product, the interest of the manufacturer in having Canadian raw products turned from the United States is clear enough, if they are admitted free of duty to that country the Canadian producer will be enabled to compete with buyers from across the line. If their export is prevented or partially prevented by the maintenance of the tariff, the Canadian producer will be enabled to compete with buyers from across the line. If their export is prevented or partially prevented by the maintenance of the tariff, the Canadian producer will be enabled to compete with buyers from across the line.

A Tea of Individuality

Blue Ribbon Tea has an individuality of its own. No other tea is like it not only in its flavor but in its strength. It suits all climates. At anyone else's Blue Ribbon is not superior to the tea formerly used, all that is necessary is to return the packet and have the money refunded. Buy a packet. Your grocer has it or will gladly get it to fill your order.

BOILER EXPLOSION AT SASKATOON

City Power Plant is Disabled and Three of the Kingstons are Injured When Turbo Blow Out—Newspapers Are Unable to Publish.

Saskatoon, July 27.—Three men were injured, two seriously, and the city is in darkness tonight as a result of a boiler explosion at the city power plant early this afternoon. The turbo had been leaking all the morning and the power was shut off pending repairs, but the leak got worse and the fire was ordered to be drawn. While being drawn a boiler valve exploded and a jet of scalding water and superheated steam immediately enveloped the whole boiler room.

J. Sullivan, coal wheeler, received the first blast, being blown over the coal pile and luckily escaped with bruises and scratched limbs. Immediately after this when the second discharge with the combined force of the three boilers which were connected, the centre one being the source of the trouble, the whole force accelerated the horse power.

Andrew G. Sanger, superintendent of power, Harry Johnson, chief engineer, and Jack Kemp were the three men injured. The first and second named were badly scalded all over the body. Johnson had the flesh peeled almost all off both arms and hands and Sanger was also terribly scalded. Both are in the city hospital but the chance of recovery are not yet stated. Kemp had his wounds dressed and was not detained at the hospital. The explosion tied up the newspapers, which this evening were unable to publish. The superintendent and chief engineers are left to handle the disaster. It is impossible to state when the plant will operate again. As the only means adapted for relieving the tension thus far is the calling into requisition the services of a Torco horse power city transformer, the city is dreadfully inefficient, the city is dreadfully inefficient, the city is dreadfully inefficient.

FILES OF COAL AT SASKATOON

Can Be Shipped Into Canada at Once If Entry Is Removed

Duluth, Minn., July 27.—Twenty of coal to meet the threatened shortage in Western Canada can be supplied through the port of Duluth, according to the demand made upon it by the city of the Ottawa government and the city of the Ottawa government and the city of the Ottawa government.

THE HOUSE MAY DISMISS EARL GREY

EARL GREY AND SIR WILFRID LAURIER WERE IN LENGTHY CONFERENCE YESTERDAY.

Ottawa, July 27.—A rumor ran through the corridors of the House of Commons this afternoon that the government had determined to issue the election proclamation tomorrow.

It was known that Sir Wilfrid Laurier and Earl Grey and Sir Wilfrid Laurier were in conference all day yesterday afternoon and evening and in considering the advisability of immediate dissolution, but will say nothing. The majority of the members believe that as a result of yesterday's and today's proceedings in the House when the reciprocity resolutions were not reached till towards midnight, the inevitable will be hastened and all business of the parliament will be dropped in the course of a few days, probably not later than the middle of next week.

It has been decided that it is not necessary for the house to remain in session until August 9. In order that the senate may re-assemble and come up with the usual formalities. The proclamation dissolving the session will be issued at any time and from the moment it is out parliament comes to a halt. It is possible, of course, that Sir Wilfrid Laurier may not be willing to consent to dissolution without the passage of the Reciprocity Bill. The morning was taken up with the return of a dispatch to the senate and a discussion of the bill and ends. In the afternoon J. D. Taylor, New Westminster, once more introduced a resolution on the Chinese immigration issue in British Columbia and was met with a rebuff. It was 11 o'clock before a vote was taken and the motion voted down by a government majority of 36. The anti-reciprocity arguments were continued until the hour of adjournment.

J. D. Taylor (New Westminster) occupied practically all of the afternoon in another discussion of the Chinese immigration issue. His main points were summarized in the following manner: During the period of three years preceding the commencement of the present session, the Chinese immigration at Vancouver had been steadily increasing and during that period the government had been unable to check or prevent them that they were a great source of trouble to the public revenue of Canada by this neglect and default of the government. He said that none of the people of Canada had been prosecuted or punished for the neglect of the government in the matters above referred to.

Mon. Wm. Templeton in reply said that he agreed thoroughly in the best interests of the public. There was nothing in any institutions that he had been a member of which was not in the interests of the public. He said that the government had been negligent in the matters above referred to and that he was a member of the government.

The division was taken at eleven o'clock, the motion of closure being carried down by a vote of 49 to 44, a government majority of 35.

PREPARING TO INVADE PORTUGAL

MONARCHISTS ARE REPORTED TO BE MASSING ON THE NORTH BOUNDARY.

Lisbon, July 27.—The monarchist invasion of Portugal from the north to be followed by a peasant rising which has been expected daily has not taken place yet. First one day then another has been set, the provisional administration being thus obliged to obtain expensive measures for defence and the commercial and financial interests are kept worried.

Jose B. Aguiar, chief of the secret police society known as the Carbonaria, one of the most powerful influences supporting the government has left Lisbon for the frontier to assist in the defensive measures. Numerous Carbonarias are after him and it is believed he has been advised that he will have 4,000 members of the society at his disposal. His daily maintenance is to be paid by the state should events so require.

The government has had on the northern frontier 10,000 men. Lisbon was not sent any correspondence to the frontier in anticipation of the fighting.

The monarchists say that they have upward of 10,000 men ready to invade Portugal. The Carbonarias are reduced by other and more reliable forces and the monarchists are adherents. The Carbonarias are ready to be making a small sum per day for the purpose of maintaining the army of farmers throughout Galicia, with the purpose of a rising in the event that the revolution is successful.

BIG RYR DOCK FOR MONTREAL.
Will Have Lifting Capacity of Twenty-Five Thousand Tons—Will be the Largest Across Atlantic.

Ottawa, July 27.—Government has signed a contract with the Canadian Vickers Company for the construction of a floating dry dock at Montreal. The dock will be 250 feet long and will have a lifting capacity of twenty-five thousand tons. It will be the largest of its kind in the world. The dock will be built by the Canadian Vickers Company, Ltd., of Montreal, and will be the largest of its kind in the world.

BOY THOUGHT DROWNED.
Search for Seven Year Old Lad Is Continued for Twelve Days—Near Regina.

Regina, July 27.—After searching for twelve days, the body of a seven year old boy, who was thought to have been drowned, was found in a river near Regina. The boy was found by a fisherman and was brought back to Regina.

No Change in Grain Firm.
Minneapolis, July 27.—The wheat market was quiet today. The price of wheat was unchanged.

MAY BE CHOSEN "PEG POLICE CHIEF"
Chief License Inspector Lauey May Be Appointed to All Vacancies Caused by Retirement of Chief McManus—Edmonton May Regard Favorably.

A rumor was current in Edmonton yesterday afternoon that Winnipeg would extend a call to A. C. Lauey, government license inspector, to come to Edmonton to fill the vacancy of chief of police, one of the most important offices in this city, now vacant.

While the rumor lacked confirmation, it is known that Mr. Lauey stands an even chance with several other applicants for the position of chief of police in Winnipeg. It is stated that the Winnipeg police board has been holding a meeting to strengthen the chances for his appointment.

When he received in Edmonton yesterday that the selection of Mr. Lauey to be chief of police of Winnipeg was more than a possibility, The office gave him a reply.

Mr. Lauey was formerly chief of police in Winnipeg and was in the city for five years after having held it very acceptably for two years. Prior to his removal to Winnipeg he was for some time connected with the Dominion Express and was a member of the Winnipeg Police Board.

More recently Mr. Lauey has been in the office of government license inspector.

Killed by Steam Boiler.
River, Man., July 27.—Struck in the neck with a random bolt fired by one of the men of the steamship "The Prince of Wales" who were practising with a rifle. Miss Pringle, an Australian was instantly killed. A post mortem was held.

It is believed that the man who fired the shot was a member of the "The Prince of Wales" and it is understood that he was the point on which the man was to join him, he having forwarded a remittance recently to cover their passage.

Will Not Be Tory Candidate.
Ottawa, July 27.—John H. Macdonald of Ottawa, formerly minister of the interior, has declined to be a Tory candidate at the approaching federal election.

GET AT THE BAY.
A large number of people are expected to visit the bay for the summer season.

FARMER LOST LIFE BY GAS IN WELL

Prominent Resident of North Battleford, Farmer Deceased but Cultivated While Being Pulled Up and Fell to the Bottom

Special to the Bulletin.
North Battleford, July 27.—George Hermans, a prominent farmer of this district, descended to the bottom of a 100-foot well yesterday and was overcome by gas. The unfortunate man was taken to the hospital, but reaching the bottom disengaged himself from the rope for the purpose of loosening a rock which was impeding the work of the machine.

When he reached the bottom he found that the rope was so tight that he was unable to pull himself up. He managed to get to the top of the well, but when he was pulled up he was found to be dead. The cause of death was asphyxiation by gas.

The well was about 100 feet deep and was used for irrigation. The farmer had been working in the well for some time and had been feeling unwell. He was found by a neighbor who was passing by and was taken to the hospital.

Will Prosecute the Trusts.
Washington, D.C., July 27.—The United States attorney general has announced that he will prosecute the trusts of the United States.

Brandon Liberator's Office.
Brandon, July 27.—The Liberator of Brandon this afternoon decided to call a convention for Friday, Aug. 11, to nominate candidates for the Dominion House. The convention will be held at 120 p.m. and will be addressed by T. C. Norris. The names of the candidates are: A. C. Fraser of Brandon and A. C. Fraser of Brandon.

Interster Trade Turnover.
St. Joseph, Mo., July 27.—Well known tennis players of Missouri and several of the neighboring states are here to take part in the interster trade turnover tournament this week. The St. Joseph Tennis Club is in charge of the tournament.

BRITISH CABINET TO REMAIN FIRM

PREMIER ASQUITH HEADS CARDS FULLY PREPARED FOR MEETINGS TO BRITISH HOUSE

LANSDOVNE GETTING ADDITIONAL SUPPORT

London, July 27.—The political crisis arising out of the veto bill is merely marketing time while the respective generalist forces. Not only is Lord Lansdowne constantly receiving fresh adherents, but a large body of the Lansdowne peers have voluntarily offered to vote with the government, should the cabinet be forced to vote with the veto bill. The need to save the veto bill and avoid the reaction of the peers. Meanwhile the Lansdowne and their newspaper supporters maintain a bold front in an attempt to conceal the fact that they are losing ground.

London, July 27.—The most prominent view regarding the outcome of the Moroccan crisis was largely confirmed by the Prime Minister in the House of Commons today, when, with a manner as impressive as his words, he read from a manuscript which had been carefully prepared warning to Germany that Great Britain proposed to stand for what she considered her right and to maintain the balance of power in Europe.

Further testimony as to the gravity of the situation is given by the fact that the Prime Minister obviously had taken the leader of the opposition into the government's confidence. Mr. Balfour's declaration was no less firm than that of Mr. Asquith. The Prime Minister's statement was couched in diplomatic though most reassuring language. At the very closing he said: "It is obvious that Moroccan question has reached a point at which it will become increasingly difficult, embarrassing and anxious unless a solution is found."

Language Was Plain.
Each plain language on this question with the possibility of a great European war has not been heard in the British parliament in many years. The outcome of the situation appears to rest almost wholly on Germany's shoulders. If, as something asserted in some German papers, Germany has reached the stage of national development where the necessities of her population demands that the branch out into foreign fields and consider this vital to her national interests and suppose conditions in France which great Britain, though threatened her interests, the only result so far as those best informed see it, will be the effect threatened and long-avered European conflagration.

Asquith's statement.

"It is obvious that this Moroccan question has reached a point where it will become increasingly difficult, embarrassing and anxious unless a solution is found. A too close analysis at the present moment of the causes and antecedents might provide, in more than one quarter, justifications and reasons which it is on every mind desirable to avoid."

"I propose therefore simply to state to the house what the actual situation is today. Conversations are proceeding between France and Germany. We are not parties to those conversations. The subject matter may not offend British interests. Upon that point I am sure. We know the ultimate result we cannot express a final opinion but it is our desire that these conversations should result in a settlement honorable and satisfactory to both parties and which His Majesty's government can cordially say in no way prejudicial British interests."

"We believe that to be quite possible. We earnestly and sincerely desire to see it accomplished. Any statements that we have so far interfered with and prejudiced the negotiations of France and Germany are mischievous inventions, without the faintest foundation in fact. We thought it right from the beginning to make clear, failure of a settlement such as I have indicated, we must become an active party in discussion of situation."

Would Be Britain's Right.
That would be our right as a

sovereignty to the treaty of Algeria as it might be, our obligation under terms of our agreement of 1904 with France.

"It might be our duty in defense of British interests directly affected by further developments."

"We claim not any predominant position, but that of one party interested in any possible developments, and in giving a solution of present difficulty."

Balfour Will Endorse.
J. Balfour, who followed Mr. Asquith, said: "The Government the Unilateral interest in guarding the country's interests. He said:

"If there are any outside those who have had contact upon the differences and our absorption in the home duties, in the hope that they would make easy a policy, which in other circumstances this country might prefer, and if there are any who supposed that we would be wiped off the map of Europe because we have our difficulties at home, it may be worth while saying that they utterly mistake the temper of British people, and the patriotism of opposition."

James Ramsey MacDonald, leader of the Laborites remarked that the gravity of the premier's statement, in spite of its very careful phrasing could not delude any one. The Labor members were lively opposed to war, but he hoped that no European nation would assume for a single moment that party divisions would weaken the nation's spirit. Nevertheless, the situation of Germany, France and England would co-operate (he says) very last moment, he said, to check peace and prevent two profoundly Christian countries from regarding to the detriment of the world over a difficulty that could easily be settled at the Hague.

The ambassadors and ministers at London, of Germany, France, Russia, Spain, Japan, Sweden and Belgium were present to hear Mr. Asquith's statements which made a profound impression.

Parliament Comment.

The British Prime Minister's statement in the House of Commons today is greeted here with the greatest satisfaction. Opinion is beginning to manifest itself and the opinion expressed tonight is one of confidence that the deadlock between France and Germany over Morocco will be broken and a settlement acceptable to all parties reached.

Premier Caillaux conferred tonight with M. Doumer, minister of foreign affairs, and afterwards with the ministers of marine, public works and justice, and the conferences were concluded. M. Caillaux said that peace and cool heads were more than ever necessary to all parties. "We must not lose sight of the fact," the Premier said, "that two great nations can and must negotiate and arrange their difficulties."

German Comment.

Berlin, July 28.—Premier Asquith's declaration is generally favorably received here and it is believed in most quarters that it will immediately relieve the tension of the Moroccan question. All the newspapers publish Mr. Asquith's statement verbatim in the principal issue. Some of the leading journals, however, have no editorial comment. The others refer briefly to passages in the British premier's statement that are considered here as unnecessarily sharp.

The Liberal papers unanimously acclaim the premier's speech as a step tending towards peace.

The "Tagesblatt" says: "The intimation that Great Britain has no intention of interfering in a territorial rearrangement outside of Morocco, is everything that we could, from our standpoint, wish or demand."

Chicago Passenger Terminal North Western Line

COAL IS SCARCE IN SASKATCHEWAN

There is little in the Province with the exception of a small supply in the towns of the South Line from Souris Valley.

Regina, July 27.—The Government now information coming from all the coal districts in the province, has issued a report of the present situation. It is a picture of general scarcity. Supplies are exhausted, and it is found that with the exception of a little supply which towns on the South Line get from the Souris Valley, the only source from which coal is brought here is the district where the mines are now closed.

The quantities of Pennsylvania coal shipped in are very small. The coal districts have made many suggestions but in general they involve demands of more or less drastic action on the part of the Dominion and provincial governments.

The suggestion that the government will send men to Regina and it is certainly up to the local football executive to see that an Capital city is represented. What would be wrong with having the all-star team which is to oppose the Gridiron, go down to Regina and bring home the bacon?

Big Fuel Crop.
Regina, July 27.—The Saskatchewan fuel crop will bring 12,574,466 bushels to the province this year on a conservative estimate according to the government statistics.

Not suffering From Cholera.
Ensis, Prens, July 27.—Investigation proved that the persons under surveillance here are not suffering from cholera, as had been feared.

These Coastal Corn Flakes are most nourishing with milk, cream or fruit. Order a package from your grocer today.
